

BRANDON BEACHUM

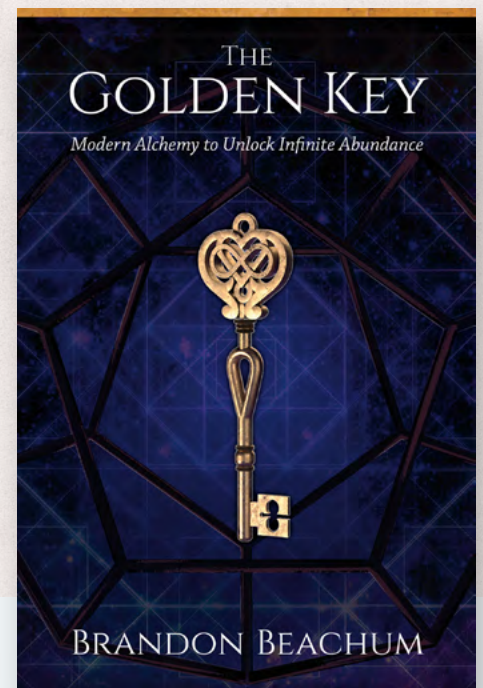

Brandon Beachum is an entrepreneur, thought leader, author, and host of *The Positive Head Podcast*, as well as the late-night style talk show, *Optimystic*. Brandon has been a serial entrepreneur since childhood, and in 2011 while living on a friend's couch he co-founded what is present-day ResortShare. In 2015, ResortShare was named the 569th fastest-growing private company in America in the annual Inc. 5000 fastest-growing companies list. Later that same year was when Brandon began *The Positive Head Podcast*, which to date has amassed over 15M downloads and has consistently rated in the Top Five in the "Spirituality" category on Apple. Today, Brandon's primary focus is on helping people shift their perspectives to innerstand the "ultimate nature of reality" and create more of what they want to see in their world!

In an effort to do so, Brandon released his first book in January 2021, *The Golden Key: Modern Alchemy to Unlock Infinite Abundance*. In it Brandon shares the 8 keys of abundance, which he has unlocked over 25 years of experience and deep exploration. He is gifting these keys to the world via the book to help others unlock their own divine potential.

He is also inviting readers to participate in a unique abundance manifestation game that entails them making an energetic contribution for the book after reading it, and then doing three abundance manifestation exercises for 88 days designed to flow abundance back in their direction. In an effort to practice what he preaches, he will also be sharing 50% of the revenue generated from listeners with any podcasts he discusses the book on.
